4. RISK FACTORS & COMPLIANCE

4.1 Regulatory Compliance

- Registered with Kominfo under PP 71/2019 (Electronic Systems)
- PDP Law UU 27/2022 compliance roadmap: 80% complete as of Q1 2026
- OJK registration for MajuPay: in final review (expected Q3 2026)
- ISO 27001:2022 certified since January 2025
- BSSN coordination for critical infrastructure designation

4.2 Key Risks

- Regulatory risk: OJK fintech licensing delay could impact MajuPay revenue
- Concentration risk: Top 5 clients represent 27.5% of total revenue
- FX risk: KL office expenses in MYR; no current hedging policy
- Talent risk: 12% annualized engineering attrition rate
- Competition: Increasing pressure from SAP, Oracle, and local startups

4.3 Data Privacy & Security

- All client data stored on servers in Indonesia (INA data residency compliant)
- End-to-end encryption for all financial transaction data
- Annual penetration testing by third-party security firm
- Bug bounty program launched April 2026 (rewards up to IDR 50 million)
- Incident response team: 24/7, target RTO 4 hours, RPO 1 hour

4.4 Insurance & Indemnity

- Professional Indemnity: USD 2 million coverage (AIG)
- Cyber Liability: USD 1 million coverage (Chubb)
- Directors & Officers: IDR 20 billion (Asuransi Astra)
